

New Web Site, UL Listed Power Supplies, Applications... Check us out!!!

- We have upgraded our website with a fresh new look and a ton of new information.

www.lighttape.com

- A new line of UL approved Smart Driver™ Power Supplies are now available.
- Download the comprehensive Design Guide to facilitate specification work or just to learn a little more about the products.
- Animated signage that really stands out! Perfect for your next POP display campaign.
- Installing 100 foot-plus segments of outdoor lighting has never been easier with our new Snap-N-Light custom outdoor mounting solution.
- New DC Power Supplies are available that are portable and small enough to fit in your pocket. They are great for car, motorcycle, and remote installations, too!
- Backlight onyx, stone or acrylic bartops with our customized panels. Our lamps stay cool to the touch and cast an even light from end to end.

Light Tape[®] UK develops new edge lit acrylic signs. Just etch a piece of acrylic, add Light Tape[®] on the edge, *Et Voila...* Watch the green POP as the colored light hits the etched sections!
